THE CPLP

CASCAIS

## I CONFERENCE ON ENERGY FOR THE DEVELOPMENT OF THE CPLP

*Zero Carbon Event*

Cascais, 24 and 25 June 2015

Estoril Congress Centre

### PROGRAM

The "I Conference on Energy for the Development of the CPLP" aims to recognize the value of the existing capacity in this Community to affirm itself as a global actor in the world energy field and to show the ability to be an intercontinental platform for political and diplomatic coordination; technical, financial and economic cooperation partner; promoter to the creation of business and production of wealth; agent in the production of investigation, science and technology and driver of a global model of energy sovereignty and development for the XXI Century.

Therefore it seeks to:

- Recognize the political, economic and financial value of the energy sector in the CPLP
- Demonstrate the geostrategic and geopolitical potential of the sector on a global scale
- Increment and foster partnerships, business environment, investment and cooperation frameworks
- Strengthen the creation of knowledge and its application to the sector
- Create a global citizenship for energy

The conference program is what then presents itself.

<p><b>Estoril Congress Centre</b></p>			
<p><b>Show Business</b></p>			

- A space for interaction and knowledge, designed to enhance the proximity and contact between participants, meet companies, develop projects and carry out activities for promotion/presentation.

#### **Contact and Business Platform**

- An event with the goal of making available a space that allows for bi or trilateral meetings, direct contacts between some of the speakers, companies and/or other partners that can offer to identify concrete business opportunities. It's also a space to present project guidelines, products and services, with a view to meet a certain offer/demand of a given target market.

#### **Corporate Presentations**

- Upon previous registration, small spaces will be created that allow for institutional and corporate presentations and showing of projects, initiatives, methodologies and other realities by every sort of entities.

#### **Showcase of Innovative Projects in the Energy Sector**

- Subject to pre-registration, a space will be available for entities included in the Conference - coming from the world of businesses, production, regulation, or academic sectors, and civil society - to expose innovative projects in all areas of energy.

#### **Exhibit**

- On exhibition in the Conference will be an exposition of 55 pieces - including paintings, sculptures and photographs -, of which the sale will revert to the Campaign "Together against Hunger!". This Campaign has as its main goal to raise funds for the eradication of hunger in CPLP member states, therefore supporting CPLP Food and Nutritional Security Strategy and the fulfilment of the human right to adequate nutrition. The 14 projects that are up for financing were selected among dozens of applications received. The beneficiaries of these projects are small and vulnerable agricultural families and civil society organizations representing those groups. CPLP has already raised 70 000 € to finance the first two projects, in Cape Verde and Guinea Bissau.

#### **AIP Space**

- Permanent space for AIP communication actions that work as support for the promotion and internationalization of companies by intensifying:
  - o Partnerships between entrepreneurs of the CPLP
  - o Disclosure of opportunities and systematized information on markets
  - o Reduction of internationalization costs
